REPORT NO.

THIS IS UNEVALUATED INFORMATION

25X1

1. Production of radio tubes under the T-2 program is the most important production objective at the HF-Werk für Fernmeldewesen, in Berlin-Oberschöneweide. All the tubes produced in this program are delivered to the Sachsenwerk Radeberg SAG Kabel.
2. The production of tube sets will be increased 42.8 percent over the production in 1951. In 1951 there were produced 42,000 sets, so in 1952, 60,000 sets will be produced according to the plan. A tube set in 1951 had 20 tubes. Under the 1952 plan it has 31 tubes. This means that in 1952, 1,860,000 tubes will have to be produced under the plan, which will be an actual increase in tube production of 121.4 percent.
3. A T-2 program tube set comprises the following tubes:

Totals	31	1,860,000

4. Under the T-2 program, a television tube will also be manufactured, designated 23 IK 1b. The schedule for 1952 is 120,000 pieces. In 1952, the goal was 42,000 pieces. Each 1952 set has two television tubes; in 1951 it had only one.
5. The HF-Werk became a state-owned (VEB) enterprise on 1 May 1952.
